Note:

Thanks for making studio feel safe and inviting, the transition to a new school in another city is never easy, and though I may have left studio confused nearly every time, I never went without laughing at least once and that's the type of light we truly need. There were times you were a little too smart for me to truly grasp the concepts but it definitely isn't a bad thing, you challenged me, and when I knew what you were saying, it was 10x more enjoyable because it meant I was smart too. Thanks for making me laugh Joy/Jingyi, and thanks for taking the time to get to know us.
